

Green Country Friends Meeting
State of the Meeting 2022/2023
April 2023

This year we have enjoyed fellowship with each other with about six individuals attending on Zoom each week. We have had great support from Stillwater Meeting individuals attending regularly. We also have one Friend attending on Zoom who now lives in Toronto. We have been discussing changing to a combination of online and in person meeting since the Covid number in Oklahoma and Tulsa have greatly decreased from previous levels. We have been discussing this change for quite some time now so we hope it will happen in the not-so-distant future.

We have several attenders who began worshiping with us in just the last couple of years. Many of us have not ever met face to face yet. The desire to get together is increasing as we continue to meet online. Spirit willing It WILL happen!

One thing we have noticed is that since we started meeting online is that even though Zoom has worked better than we thought it would there have been very few leadings to speak during worship. We plan to switch to a Worship Sharing format for the last 20 min of Worship. In the past when we had Worship Sharing it always worked very well.
